

Cyberize It – Online Notarization Platform

Cyberize It is a state-of-the-art, online notarization platform that connects consumers and notaries together. It's a platform where people can seamlessly and digitally get their papers signed and sealed by a notary while also enabling notaries to provide their services in exchange for a fee.

About Cyberize It

Cyberize It is a secure digital notarization platform designed to simplify and modernize the notarization process through remote online technology.

It enables individuals, businesses, and certified notaries to complete legally compliant notarizations online—eliminating paperwork, in-person visits, and delays while maintaining the highest security standards.

Built for scalability and compliance, Cyberize It combines identity verification, document security, real-time video sessions, and audit-ready records into one seamless platform—making notarization faster, safer, and accessible from anywhere.

Solution we Provide

A scalable and secure remote online notarization platform was engineered to fully digitize the notarization process for customers, notaries, and administrators eliminating manual steps and enabling legally compliant online workflows.

The system was designed after detailed journey mapping, workflow research, and wireframing to ensure a seamless experience on both sides of the notarization process.

01

Backend & Core Architecture

Built on Node.js (Express) with a MySQL database to ensure scalable, secure, and high-performance notarization workflows.

02

Integrations & Payments

Integrated Zoom, AdobeSign, Idology (KBA), and Stripe Connect to enable video notarization, e-signatures, identity checks, and real-time split payments.

03

User Roles & Workflow Digitization

Implemented Admin, Customer, and Notary roles with fully digitized notarization journeys designed through detailed workflow mapping.

04

Advanced Features & Modules

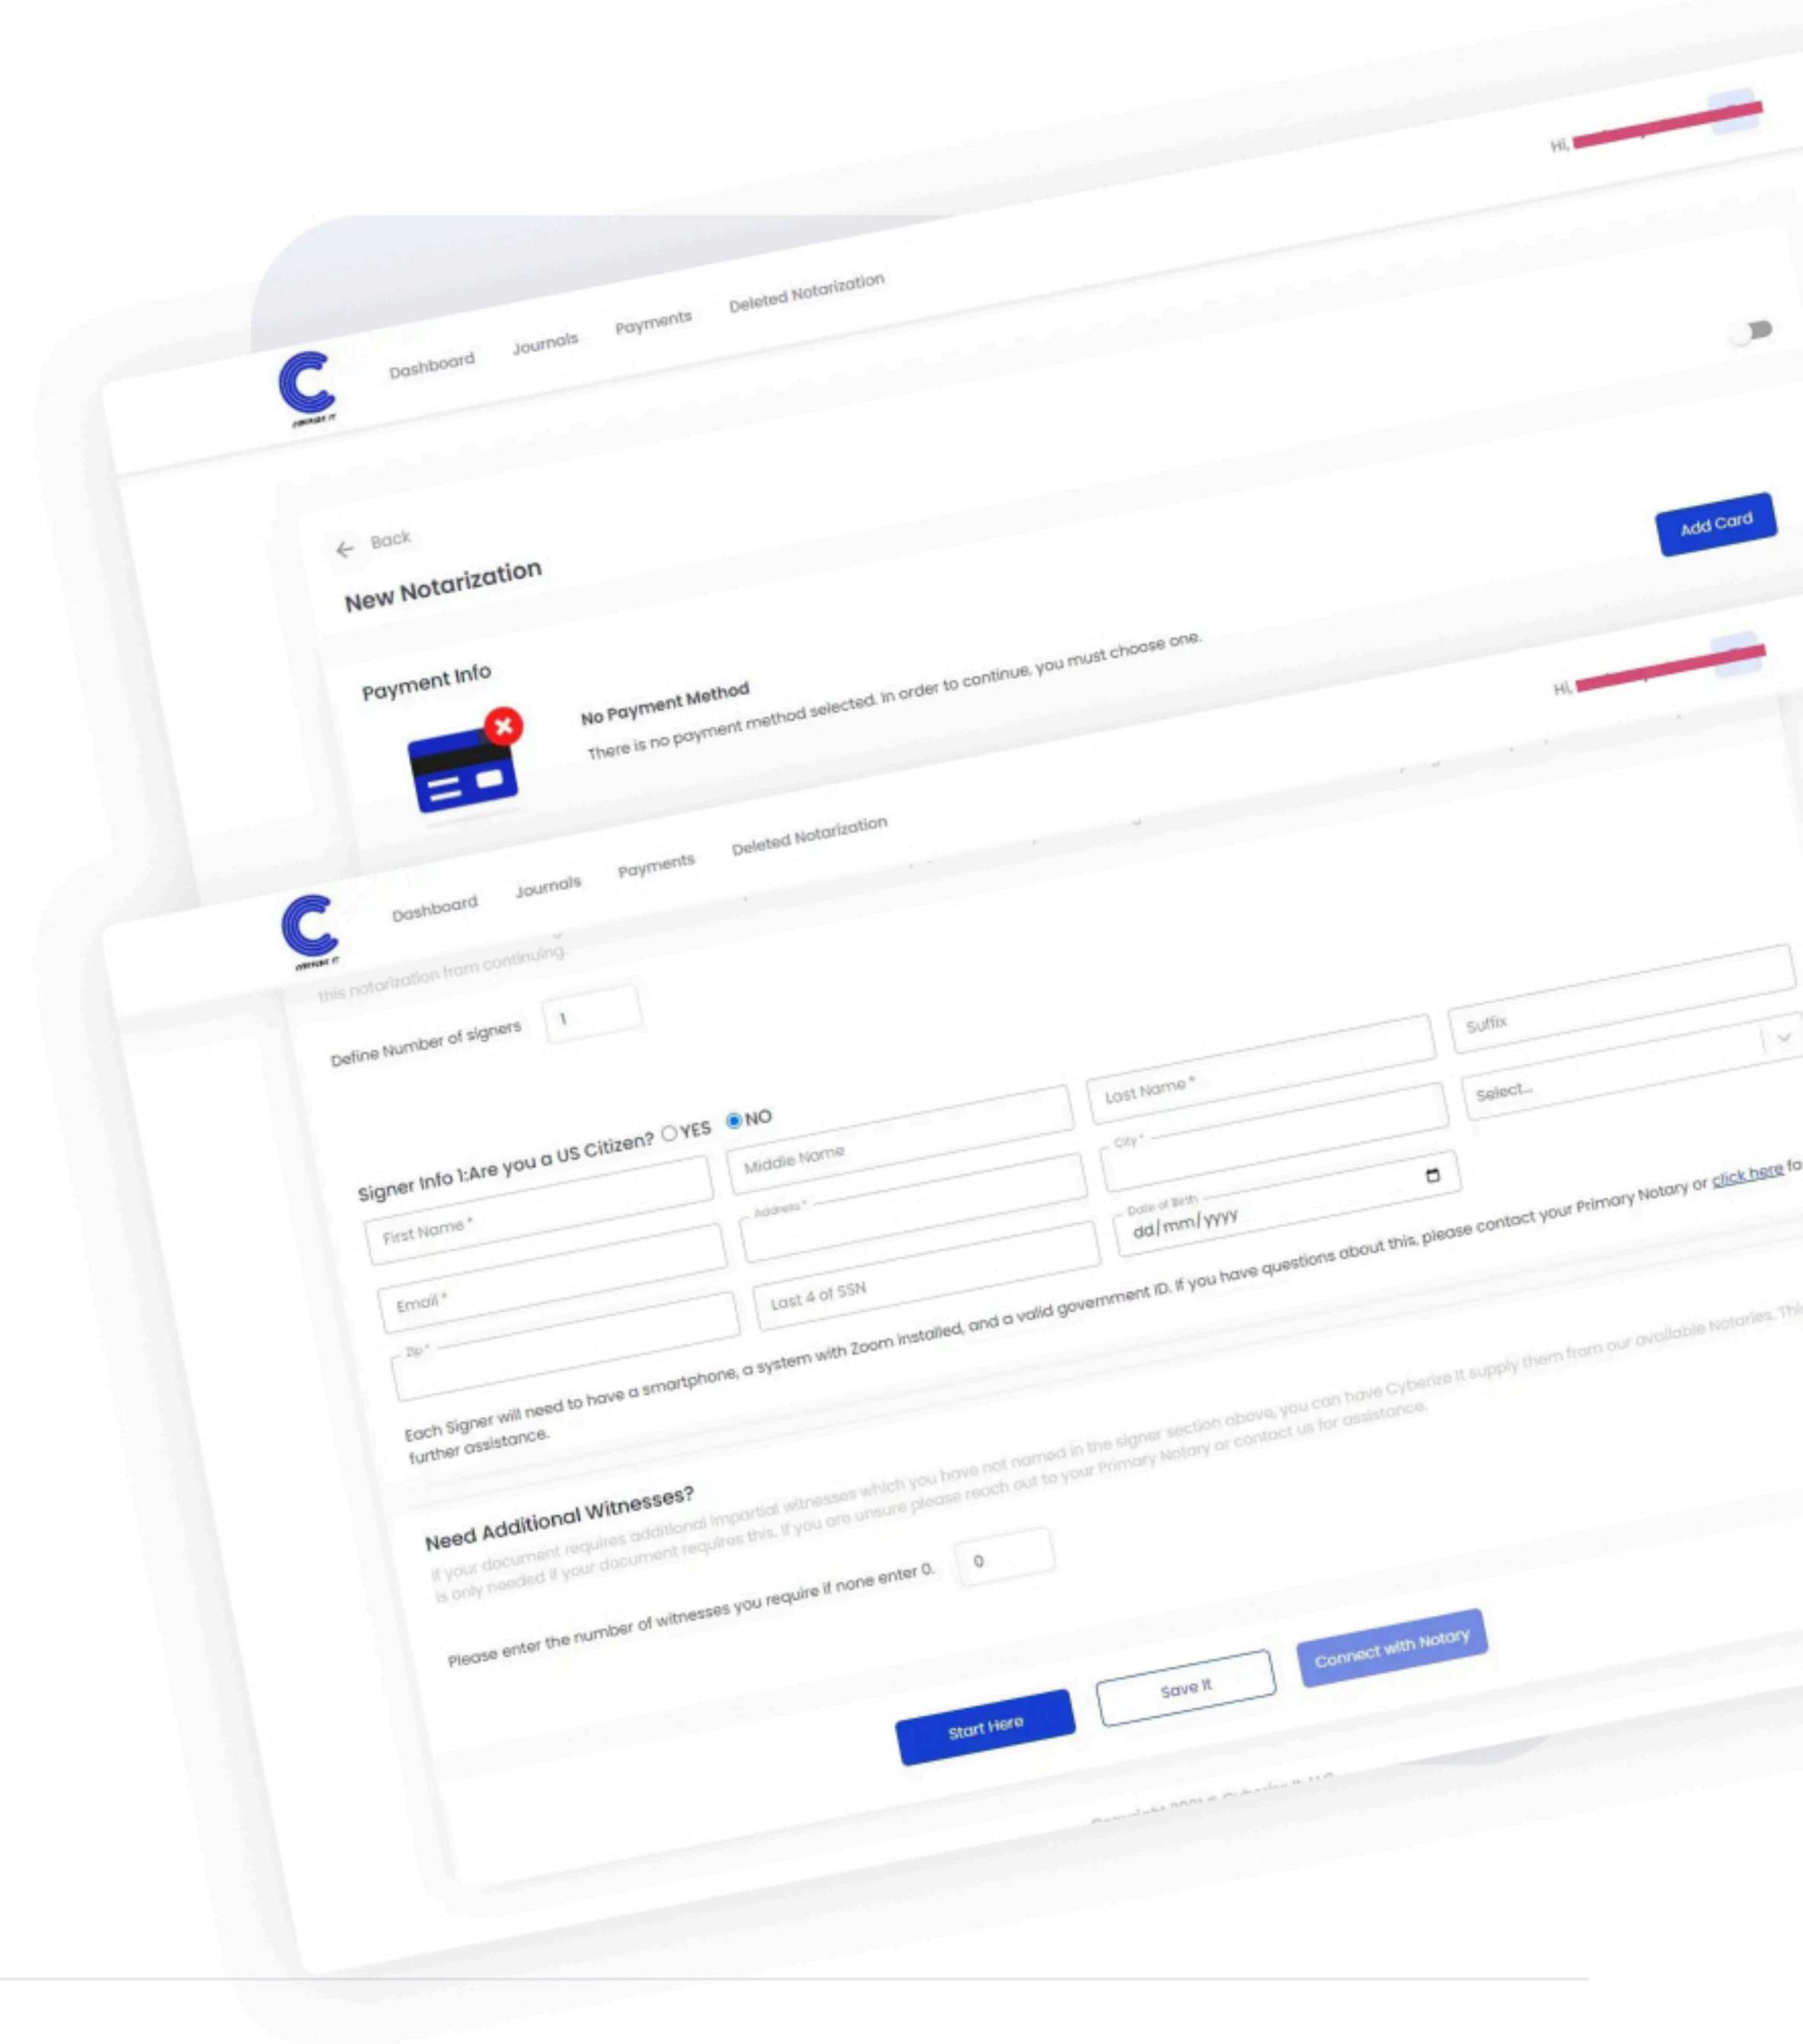

Added professional notary accounts, biometric ID verification, and a job board for notarization and witness assignments.

“Clean interface, secure identity checks, and seamless workflows. Cyberize It delivers exactly what digital notarization needs.”

Document Services

What we do more

We build reliable, scalable web solutions that turn ideas into fast, secure, and user-friendly digital products.

Frontend Engineering

Building fast, responsive, and user-friendly interfaces with modern web technologies.

System & CMS

We create flexible admin panels and CMS systems to manage content, settings, and data from one place.

Development

We develop high-performance web applications using modern technologies, secure APIs, and scalable architectures.

My Outfit Builder

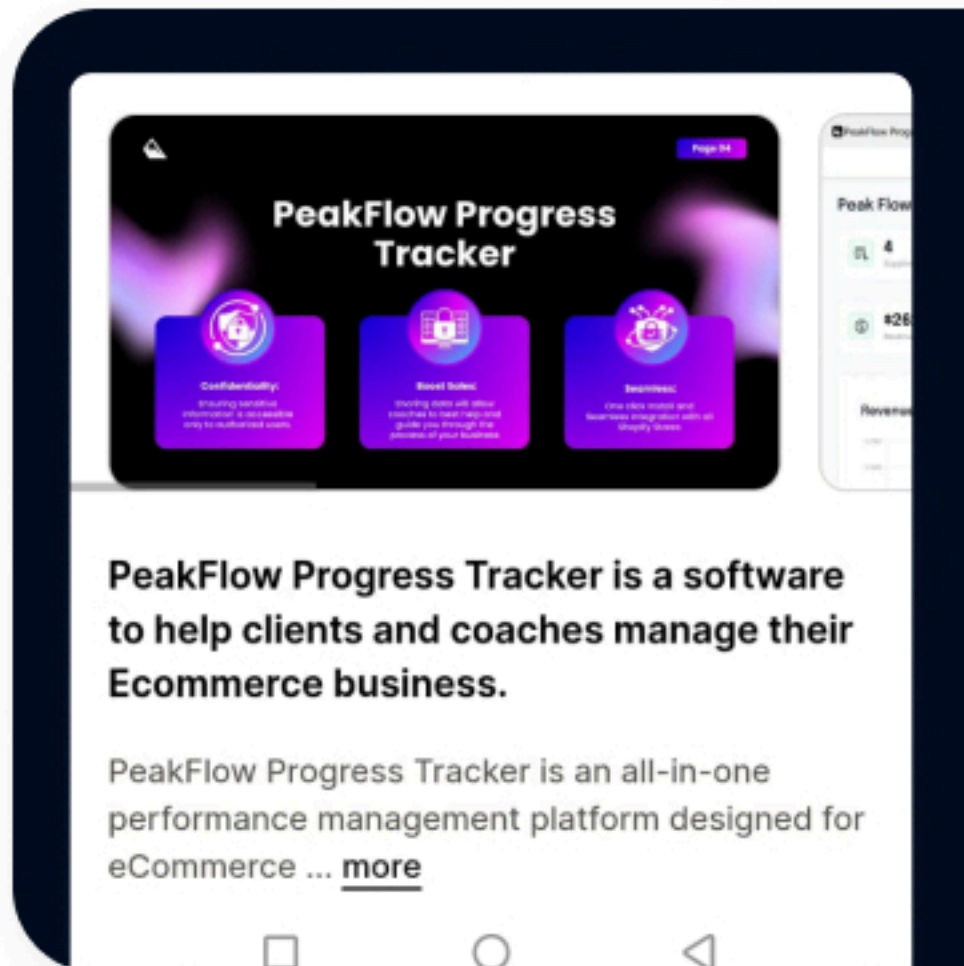

Interactive Shopify app that transforms static product grids into drag-and-drop outfit building, increasing engagement and product discovery.

Extend B2B ECommerce - AIO

An all-in-one wholesale plugin that gives you all the essential features you need to start selling wholesale online and streamline your business operations.

Extend B2B – Ecommerce AIO for WooCommerce

Comprehensive B2B ecommerce solution for WooCommerce with advanced pricing, roles, and business workflows.

Peak flow progress Tracker

All-in-one ecommerce performance tracking platform for store owners, coaches, and agencies.

Extend – Booking Filters for WooCommerce

Enhance your WooCommerce Bookings with powerful search and filter options.

Extend – Booking Filters for WooCommerce

Advanced filtering solution for WooCommerce Bookings, improving discoverability and booking UX.
