About Extend

(Subscriptions Add-On for WooCommerce)

Subscriptions Add-On for WooCommerce is a powerful extension designed to help stores launch and manage recurring payments and subscription-based products with ease.

The plugin enables merchants to offer flexible subscription models such as weekly, monthly, or yearly billing, while giving customers full control over their subscriptions—including renewals, upgrades, downgrades, pauses, and cancellations.

Built with scalability and reliability in mind, the add-on integrates seamlessly with WooCommerce core and payment gateways, ensuring accurate billing cycles, automated renewals, and consistent order management. It is ideal for businesses offering membership plans, SaaS products, subscription boxes, or recurring services.

Recurring Payment Handling

Solution We Provide

As developers, we built the Subscriptions Add-On for WooCommerce to enable reliable, scalable, and fully automated recurring billing workflows within the WooCommerce ecosystem.

The solution focuses on delivering a robust subscription architecture that handles billing cycles, renewals, and customer lifecycle management while maintaining full compatibility with WooCommerce core and payment gateways.

01

Subscription Engine Architecture

Designed and implemented a centralized subscription engine to manage recurring orders, billing schedules, and subscription states with accuracy and consistency.

02

Automated Billing & Renewals

Built automated renewal workflows to generate orders, process payments, and update subscription statuses without manual intervention.

03

Customer Subscription Management

Enabled customer self-service features such as upgrades, downgrades, pauses, and cancellations, improving user experience and reducing support overhead.

04

Payment & Lifecycle Reliability

Implemented secure payment handling, retry logic, and lifecycle automation to ensure stable recurring transactions and predictable revenue flow.

“The subscription system works reliably with automated renewals and billing.

It significantly reduced manual effort and improved recurring revenue flow.”

What we do more

We build reliable, scalable web solutions that turn ideas into fast, secure, and user-friendly digital products.

Frontend Engineering

Building fast, responsive, and user-friendly interfaces with modern web technologies.

System & CMS

We create flexible admin panels and CMS systems to manage content, settings, and data from one place.

Development

We develop high-performance web applications using modern technologies, secure APIs, and scalable architectures.

My Outfit Builder

Interactive Shopify app that transforms static product grids into drag-and-drop outfit building, increasing engagement and product discovery.

Cyberize It

Built a full-scale online notarization platform connecting customers and notaries through secure digital workflows. Implemented multi-role access (Admin, Customer, Notary), live video notarization, e-signatures, identity verification, and split payments

Peak flow progress Tracker

All-in-one ecommerce performance tracking platform for store owners, coaches, and agencies.

Extend B2B – Ecommerce AIO for WooCommerce

Comprehensive B2B ecommerce solution for WooCommerce with advanced pricing, roles, and business workflows.
